

ABOUT

## Triangular Foam Sidewall Portable Bund

Stratex Triangular Foam Sidewall Portable Bunds are the best option available for portable fast bunding options. The flexible side wall allows access for vehicles, forklifts, drum and pallet trolleys, while providing containment for any incidental spills. Compact storage and easy to transport, the bunds can be erected in seconds with no tools needed.

Ideal for pump and generator bunding, temporary storage of tanks, drums, heavy equipment and as wash down mats for vehicles. Lap joint welded for maximum strength meaning excellent rip, tear, and puncture resistance. The bunds are fuel and chemical resistant and the foam sides can be driven over without any disassembly giving true drive in/drive out capability.

### FEATURES

- Instant access for vehicles
- 100mm sidewalls to maximise capacity and forklift compatibility
- Easy to transport, store and clean
- Available in various fabrics and custom sizing available

### FABRICS AVAILABLE

- Heavy Duty UV Stable 900gsm PVC.
- Elvaloy Fabric designed for robust applications and the storage of hydrocarbons and a vast array of chemicals.
- Polypropylene for aggressive acids and alkalis.

### IDEAL FOR:

- Portable motor vehicle washing
- Permanent wash bays
- Truck and machinery wash down
- Temporary containment of leaking equipment
- General spill containment bund
- Temporary storage of liquids

**Optional pre-installed bund plug** available upon order - ideal for removing unwanted liquid via oil and water separator bag or pumping into storage vessel.
