

ABOUT

## General Purpose Absorbent Cushion

Absorbent cushions are excellent for absorbing the bulk of a contained spill when a pad isn't enough. They are lightweight, compact and simple to use. Cushions can be placed under leaks or stuffed into holes and other hard to reach places.

Each Stratex absorbent cushion can absorb up to 4.5 litres of liquid.

General purpose absorbents are grey in colour and rapidly soak up all types of liquid spills, including non-hazardous, water based, hydrocarbons (including oil & fuel) as all as most chemicals.

### FEATURES:

- Rapid and easy to use spil absorption
- Ideal for capturing leaks, drips and absorbing bulk liquids.
- Suitable for confined and hard to reach areas.
- Huge 4.5 litre capacity.
